

**Today's Family  
is embracing  
the Future!**

## Today's Family is embracing Caring.

Caring is the essence of who we are. It's reflected in every aspect of what we think and do.

By embracing caring, we care not only for children and their families, but also for our staff, our community, and our environment.

## Today's Family is embracing Accountability.

Serving children and their families is our primary responsibility and it's one we take seriously.

Ensuring people are nurtured and respected is not only our calling, it's our privilege.

Embracing accountability means providing high-quality, evidence-based programs and services.

Our emergent, child-based curriculum builds on the distinct needs and interests of each and every child in our care. It creates a firm foundation for early learning from which healthy, productive lives will take root and grow.

## Today's Family is embracing Collaboration.

Working in partnership with organizations across our city and throughout the province, we embrace collaboration.

Believing in the power of partnership, collaboration is a strategic imperative that increases our resources and magnifies our impact.

More than that, by embracing collaboration, we celebrate the fact that, together, we can accomplish so much more. Indeed, none of us is as strong or smart as all of us.

## Today's Family is embracing Innovation.

Celebrating change, we embrace innovation and the positive developments that come as a result.

Growing to meet the needs of children and their families, we are ready and willing to take the path less travelled knowing it will lead to breakthroughs and discoveries.

Constantly improving, we are always looking for creative ways to raise the bar and further raise expectations.

## Today's Family is embracing the Future!

Tomorrow's calling, and we will be among the first to answer.

Embracing the future means embracing hope and imagining a world of infinite possibility.

And with every hug, the promise of tomorrow continues to grow.
